BALTIMORE, MD., May 11.—A meeting of the Blair-Ryan committee, in charge of the refinancing of the Seaboard Air Line Rallway, was held in New York today, and it was finally decided to modify the pending proposition to stockholders by adopting the holding company idea.

The new corporation will be known as the Seaboard Company, and will be chartered in a short time. The counsel of the committee is now preparing these dethe committee is now preparing these details. Owing to the objection of the stock holders represented by the Baltimore committee, of which Mr. Carl Ruhstrat is chairman, it was found inadvisable to is chairman, it was found inadvisable to attempt to carry through the first plan. The proposition now taken up will not necessitate securing all the stock of the company, but may be carried out by a majority of the stockholders. Such a majority, it is stated, is represented by the committee, which at to-day's meeting adopted the holding company proposition. The stock already deposited under the plan which has been dropped will have two weeks in which the owners may determine whether they will go into the holding company proposition. If they do not care to go in, they may withdraw their stock.

It is expected that a formal announce-ment of the details of the new plan will be made early next week. They do not differ materially from the capitaliza-tion proposed under the plan which has been given up.

tion proposed under the plan which has been given up.

There will be an authorized issue of \$18,000,000 of first preferred stock. Of this there will be used for immediate requirement \$7,500,000. The money thus raised will be loaned to the Seaboard Air Line Railway for the betterments and improvements already outlined in the original plan. To enter the holding company stockholders will be asked to scale their holdings \$25 per cent, as under the their holdings 25 per cent., as under the recent proposition. For their stock in the railway they will be given stock in the holding company, which will have three classes of stock. These will be first preferred, to raise new capital; the second preferred, to be exchanged for the present preferred stock of the rail-way and common stock, to be exchanged the common stock of the rallway It was the opinion this afternoon that the change in the form of carrying out the Seaboard Air Line financial plan, although not affecting the avails except in so far as the new issues are those of another corporation, cancels all deals in the rights and securities.

One of the chief causes of nervous fatigue is said by an optician to be due to the fact that in city life men's eyes are always fixed on near objects. When at rest the eyes move apart until they are parallel, as if they were looking at the horizon. All the time, therefore, that a person is looking at objects close to him the little muscles of the eye are doing tiring work. That is why the eyes feel rested by an extensive view in open country.
